Washington, DC 20204

Dear Sir/Madam:

This is a notification pursuant to 21 U.S.C. 343(r)(6) that Standard Process Inc., Palmyra, Wisconsin 53156-0904, is making the following statements:

- (1) Vitamin D complex, found in Cataplex D, is derived from sunshine and manufactured through the skin and plays an important role in maintaining a healthy blood-calcium level.*
- (2) The vitamin D complex increases the diffusing capability of serum calcium and the absorption of dietary calcium, thereby increasing the total amount of calcium available to all the tissues.*

These statements are made for a dietary supplement containing ingredients of calcium lactate, milk powder, potassium citrate, glycerine, calcium stearate, arabic gum, vitamin A palmitate, cholecalciferol, and ascorbic acid. And the name of the product is Cataplex® D.

The information contained herein is accurate and Standard Process Inc. has substantiation that the statements are truthful and not misleading.

Sincerely yours,

Ann Holden
Standard Process Inc.
